

COUNCIL PROCEEDINGS.

What Was Done at the Last Meeting of That Body.

Council Chamber—City of Orangeburg, S. C., April 10, 1908.
Proceedings of regular meeting of City Council held this day.
Present: Hon. J. W. H. Dukes, Mayor and Aldermen J. L. Lathrop, Bowman, Smith, Smoak, Weeks and Wertz. Full Council.

All vouchers for disbursement made by the Treasurer for the month of March, 1908, were approved by the respective committees on the Council.

The report of the City Treasurer for the month of March, 1908, was read and referred to the finance committee and ordered published.

The report of the secretary Commissioners of Public Works for the month of March, 1908, was read and received as information and order published. Sewer construction estimate No. 12, contract No. 1, for the month of March, amounting to \$3,011.15, less 10 per cent reserve, \$301.11, leaving balance to be paid, \$2,710.04, and also expense account of \$96.75 advanced by the City for the month of March, having been approved by the sewerage commission, were read and approved by the Council and ordered paid, and their payment previously made by the treasurer, under authority of the finance committee and the Council, was also approved.

The following proposed ordinances having received their first and second readings March 13, 1908, were taken up and given their third and final reading and were adopted, passed and ratified and ordered published: the ordinances are entitled: (First): "An ordinance to punish vagrancy" and (second): "An ordinance to punish Petit Larceny in the City of Orangeburg." (See ordinance published.)

The Clerk reported the removal by Mrs. Dr. W. S. Barton, of a fence on Fowles street heretofore reported as an encroachment upon said street.

A communication from Maj. W. V. Izlar asking for an appropriation from Council to assist in the erect of a monument to the dead of Haywood's Brigade of South Carolinians on the battlefield of Virginia, was read and on motion was received as information.

The Sewerage Commission (Dr. Doye, chairman, and Dr. Jeffords, T. H. Wannamaker and Adam H. Moss) appeared before the council and asked for an appropriation not exceeding \$500.00 to complete the system as heretofore submitted to and approved by council, the commission having found at its last meeting that there would not be quite enough funds in their hands to pay certain expenses which they thought should be paid, and entirely complete the work laid out. After a full and general discussion of the matter, the following resolution offered by alderman Lathrop was read and adopted:

"Resolved, that the sewerage commission be requested to proceed with the completion of the sewer system as heretofore submitted to and approved by the City Council, and that in addition thereto the sewerage commission be and they are hereby authorized to construct a sewer on College avenue to connect with the Main sewer on Russell street to the Brunson-Smith line, and that the necessary expense of such completion of the sewer system together with the said College avenue line be paid by the City if the funds now in the hands of the sewerage commission be insufficient to pay for the same. And that the construction of the Fenwick extension be left to the discretion of the said commission."

At the request of the sewerage Commission the council on motion ordered that the City Engineer give his time to the inspecting of the sewer system already completed for fifteen days excepting two hours each day, beginning April 11, 1908.

Mr. A. F. Funderburk appeared before council and requested that the license on his pool tables for the current fiscal year be reduced. On motion this request was refused.

At the request of the mayor alderman Bowman made a verbal report as to the visit of the delegation to Washington in behalf of an appropriation by the National government for a public building here, in which he stated that the visit would no doubt bear good fruit. The mayor also made a very encouraging report as to the prospects of obtaining the appropriation.

The alleged violation of the ordinance by Mr. L. E. Riley in the construction of a certain building on lot corner of Middleton and Amelia streets—the same being in the fire limits, was on motion referred to the committee on fire department with request to investigate and report.

The matter of fire risks caused by moving picture shows, was also referred to the committee on fire department for their consideration.

The matter of using "dry wells" in the City was on motion referred to the board of health for such action as they might deem wise and proper.

On a request from the board of health that the City defray the expenses of two delegates to the Anti-Tuberculosis convention to meet in Anderson, S. C., April 14, 1908, it was on motion ordered that the City pay the expenses of one member of the board of health who may attend the said convention.

The chief of police submitted his report for the month of March, 1908, showing number of arrests, 50; number of days' labor on streets, 108, and amount of fines and forfeitures paid to treasurer, \$180.25.

The Council, then on motion adjourned.

L. H. Wannamaker,
Clerk and Treasurer.

Office of City Clerk and Treasurer,
Orangeburg, S. C., April 1, 1908.

To the City Council.

Gentlemen:—I respectfully submit this report of the financial transactions of my office for the month of March, 1908:

Respectfully submitted,
L. H. Wannamaker,
Secretary.

Avoid Extreme Fatigue.

Exercise that brings into action every muscle of the body is absolutely necessary in the attainment of health and perfect physical development.

Tired brain workers especially need exercise to renew the supply of blood in the brain, for new blood will give clear thought and new ideas.

To avoid that "all in" feeling after any violent or unusual exercise, Sloan's Liniment should be used as a rub-down.

Mr. Harry K. Gilman, instructor of athletics, 417 Warren Street, Roxbury, Mass., writes: "During my connection with athletics and athletes will say that I have used Sloan's Liniment in extreme cases of fatigue after physical exertion, where an ordinary rub would not prove beneficial, with splendid success. I have also used it in massaging elderly men afflicted with rheumatism."

"We always keep a bottle around the house for any household emergency, and I always carry one in my grip, and will in the future."

Also everything in the Hardware line, Stoves and Ranges &c.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfect, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I can cure all curable cases of this heretofore much dreaded disease. These sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's
Rheumatic Remedy
DR. J. G. WANNAMAKER.

Have You a Summer Stove?

The stifling air of a close kitchen is changed to comfortable coolness by installing a New Perfection Wick Blue Flame Oil Cook-Stove to do the family cooking.

No kitchen furnishing is so convenient as this stove. Gives a working heat at once, and maintains it until turned out—that too, without overheating the room. If you examine the

NEW PERFECTION

Wick Blue Flame Oil Cook-Stove

you will see why this is so. The heat from the chimney of the "New Perfection" is concentrated under the kettle and not dissipated through the room by radiation. Thus it does the work of the coal range without its discomfort. Ask your dealer about this stove—if not with him, write our nearest agency.

The **Rayo Lamp** is a very handsome piece of housefurnishing and gives a clear, powerful light more agreeable than gas or electricity. Safe everywhere and always. Made of brass finely nickel plated—just the thing for the living-room. If not with your dealer, write our nearest agency.

Standard Oil Company
(Incorporated)

BEAUTY AND CLEANNESS

are essentially the characteristics of our brass and metal beds. For summer use there is none to be compared with them.

Like All Our Furniture,

these beds have been built right in every detail. We can recommend them because we know their good qualities. And the price ought to recommend them to you. So inexpensive are they that you can furnish every bedroom in your house without feeling yourself extravagant.

Also everything in the Hardware line, Stoves and Ranges &c.
